Atlantic Centre at European Parliament Conference in Brussels

The Atlantic Centre (AC), represented by its Coordinator, Rear Admiral Nuno de Noronha Bragança, participated on 20 May in the conference “EU Maritime Security & Defence: Present and Future”, organised by the SEArca Intergroup of the European Parliament, in Brussels.

The AC was part of the panel “Current Threats and State of Resettlement at EU and Sea Basin Level”, where it shared perspectives on maritime security challenges in the Atlantic.

This participation contributed to increasing the visibility of the AC within the European sphere, promoting its work, and strengthening ties with key institutions involved in cooperative security in the Atlantic.
