Atlantic Centre signs a Collaboration Protocol with the National Committee for the Decade of the Ocean

On January 28, a Collaboration Protocol was signed at the Ministry of National Defense in Lisbon between the Atlantic Centre (AC) and the National Committee for the Decade of the Ocean (CNDO), aimed at regulating the various areas of cooperation to be developed between them.

The signing ceremony was presided over by Her Excellency the Secretary of State for National Defense, Professor Dr. Ana Isabel Xavier, with the Protocol being signed by the Coordinators of AC and CNDO, respectively, CALM Nuno de Noronha Bragança and Professor Dr. Luís Menezes Pinheiro.

The signing of this Collaboration Protocol marks the beginning of a partnership between the two organizations, with the goal of contributing to the creation of an Atlantic community of interests based on maritime security, environmental protection, and biodiversity conservation. This cooperation will be implemented through the exchange of speakers, joint participation in research and capacity-building projects, and the sharing of information regarding their respective activities.
