

## Atlantic Centre Signs Protocol with Académie De La Mer de Monaco

*21 November 2025*

Last Friday, 21 November, the Atlantic Centre – represented by its Coordinator, Rear Admiral Nuno de Noronha Bragança – visited the Principality of Monaco, where, in the presence of His Excellency the President of the Portuguese Republic, Marcelo Rebelo de Sousa, and His Serene Highness, Prince Albert II, signed a protocol with the Académie de la Mer de Monaco, represented by its President, Mr Laurent Anselmi.

The signing of the protocol reflects a shared commitment to strengthening research and geopolitical analysis of the oceans, to better understand global maritime dynamics and act together for their preservation, thereby marking an important step in deepening institutional ties.

We celebrate this new partnership with the Académie De La Mer de Monaco as we continue advancing the Atlantic Centre's mission of fostering a more collaborative and dynamic Atlantic community.
