

## **Participation in the 14th Edition of the Atlantic Dialogues 2025 in Morocco**

*22 December 2025*

Between 11 and 13 December, the Atlantic Centre — represented by its Coordinator, Rear Admiral Nuno de Noronha Bragança — took part in the 14th edition of the Atlantic Dialogues 2025, held in Rabat, Morocco. This event serves as a meeting point for leaders, entrepreneurs, academics and representatives of civil society from across the Atlantic region.

The Atlantic Centre also had the opportunity to participate in the *Night Owl 2* session, dedicated to the theme “The Demographic Reality of the Atlantic and its Implications”. This session examined different demographic realities and their long-term consequences for economic growth, political stability and inter-regional cooperation.

The Atlantic Dialogues, organised annually by the Policy Centre for the New South, have established themselves as a key forum bringing together the four Atlantic continents, fostering a new understanding of Atlantic dynamics from a *Whole-of-Atlantic* perspective.

The Atlantic Centre would like to express its gratitude to the Policy Centre for the New South for its continued partnership and collaboration in the shared mission of promoting a more participatory, dynamic and informed Atlantic community.
