

Transit of defence related products

The transit of defence related products is controlled in Portugal by the Ministry of National Defence (General-Directorate for National Defense Resources - DGRDN), and must be previously authorized.

Transit Licenses are authorizations granted by the MoD to an economic operator established in a different country and allow its older to transit through Portugal, with or without transshipment, defence related products, as defined in the Common Military List of the European Union.

The application for a transit permit must be submitted to the MoD until 30 days previously to the entry of the products into Portugal.

The application should be made using the [proper form](#), and must bring attached the following documents:

- A copy of the export license issued by the country of origin;
- A copy of the International Import Certificate or equivalent document issued by the country of destiny;
- A copy of the end user certificate

The [Law No. 37/2011 of 22 June](#) regulates the transmission and circulation of defence related products (military goods and technologies), including transit. In any case where a dispute arises due to differences between this information and the relevant legislation, the last one will govern.

These documents should be sent to:
